

Symptoms

- Dry cough
- Fever
- Difficulty breathing
- Muscle pain
- Sore throat

Gloves spread COVID-19 as easily as hands!

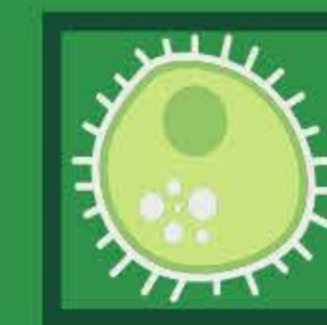

Stopping the Spread

- Cover your cough
- Maintain physical distancing from others (2 meters/1 horse-length)
- Wash your hands often with soap or sanitize with alcohol-based sanitizer
- If you are sick, *stay home*
- Wear a mask and don't touch your face

COVID-19
Keeping Safe at
the Barn

Transmission

- Physical contact with an infected person, surface or piece of equipment
- Droplet transmission (coughing, sneezing, spitting, etc.)

Safe Stables

- Disinfect tack, grooming supplies, door handles, cross ties and other equipment after use
- Minimize sharing whenever possible
